WELCOME TO KÄHRS

Never before has it been so inspiring, with so much to choose from. On the pages that follow, you'll get a first glimpse of our many new and exciting designs, along with an insight into our full range of wood floors. For even more ideas, visit our new website, at www.kahrs.com, where you can design your own interior, mixing and matching floors in different room styles, and with different wall colours. On our home page, you'll find links to all the information your need. Enjoy!
See more on pages 36–37.

SMÅLAND COLLECTION

The wild beauty of Småland is the inspiration for our new collection of unique, rustic floors.

BLOC COLLECTION

The idea is simple, the possibilities endless, with three modular formats in three different shades.

REAL COLLECTION

If you want your floor to make a big style statement, take a look at our new Real Collection.

GREEN MINDSET

We are committed to incorporating ethical principles throughout all areas of our production, both locally and globally.

WELCOME HOME

You never get a second chance to make a first impression. Make sure that the entrance to your home feels warm and welcoming. With a Kährs floor, you'll not only achieve the natural look that you want – you'll also benefit from a quality, durable finish that's essential in a busy hallway. A surface that's hard wearing and really easy to care for.

CONCEPTUAL DESIGN

Kährs ID is our brand new concept for developing the next generation of cutting edge wood floors. Based on our extensive experience of working with wood, and the traditional methods of wood floor manufacturing, we've explored and developed new pathways and possibilities.

INTRODUCING BLOC COLLECTION ENDLESS POSSIBILITIES

The idea is simple, the possibilities endless, with three modular formats in three different shades. Use them to create your own unique pattern, from geometric to classical, or something with your own modern twist. Changing the direction of the grain creates a dynamic effect, bringing the surface to life.

INTRODUCING REAL COLLECTION MAKE A STATEMENT

If you want your floor to make a statement, take a look at our new Real Collection. These majestically sized oak planks come in lengths from 200 – 300 cm. In misty white, earthy grey or natural, all three are offered in an even or more rustic timber grain.

THE HEART OF THE HOME

For many of us, the kitchen is the heart of the home. It's not only the place where meals are prepared, it's a hub where everyone loves to gather and spend time together. On busy weekdays, after work and school; at the weekend when things take a more leisurely pace. A Kährs floor will make it even more special.

INTRODUCING SMÅLAND COLLECTION STEEPED IN HISTORY

The historical roots of Småland can be found in its mythical forests. Few dared to enter into their dark, mysterious wilderness – and even fewer dared to challenge the thirteen chieftains who held them in their power. Småland – their collective Swedish name that dates back to the 12th century – means small countries. Småland has also been the “home” of Kährs since 1857, when the company was established here – close to the vast woodlands! The wild beauty of this area is the inspiration for our new collection of unique, rustic floors. Floors made in Småland, Sweden!

See the whole range and try them out in different room settings at kahrs.com

BON APPETITE

If your goal is to create an inviting space that will work just as well for dinner parties, as it will for an intimate meal for two, then start from the ground up. A wood floor from Kährs will add both elegance and warmth.

AN EVER LASTING LOVE

Wood is the most eco-friendly, beautiful and versatile flooring material there is. That's why we only work with wood. Few materials can add as much warmth and atmosphere as wood. It softens the most minimalistic designs, while accentuating the mood of a more traditional interior. And although trends may come and go, quality and true style never goes out of fashion. That's why a wood floor from Kährs will always be the perfect choice.

1857 MADE IN SWEDEN

Kährs of Sweden is the oldest wood floor manufacturer in the world still in operation, with a history that dates back to 1857. It is also the most innovative, with a history of wood floor inventions and innovations that span decades. They include the world's first patented multi-layer wood floor in 1941; the world's first water-based lacquer system in 1984, and the first ISO 14001 environmental management certification in 1997.

[kahrs.com/Why Kährs](https://kahrs.com/Why%20K%C3%A4hrs)

SEASONS GREETINGS

Compared to a traditional solid wood floor, our patented construction is 75% more stable. A Kährs floor resists warping, buckling and cracking, even as temperature and humidity change throughout the seasons. The construction creates a perfectly balanced wood floor that can tolerate even the most dramatic climate changes. This also makes our wood floors the perfect partner for under-floor heating.

GAP FREE

When Kährs launched Woodloc® in 1999 – the first glue-free joint system in the world – it revolutionized the wood flooring industry. This ingenious joint system locks the boards together mechanically, creating a completely gap-free floor.

kahrs.com/Products

[kahrs.com/Why Kährs](https://kahrs.com/Why%20K%C3%A4hrs)

MORE THAN A BEAUTIFUL SURFACE

Whichever surface treatment you choose for your Kährs floor, you can be sure that it will both enhance and protect the natural beauty of the wood. All Kährs surface treatments are naturally free from solvents, formaldehyde and isocyanate. They also make the floor really easy to clean and maintain.

kahrs.com/Products

BEAUTY WITH A CONSCIENCE

Ever since the start, we've been guided by a firm commitment to quality, the environment and sustainability. This permeates everything we do, from the selection of the best raw material from our 3,000 timber suppliers, through the different design treatments we use, to our clean and low emission production.

Find out more on page 32.

[kahrs.com/Why Kährs](https://kahrs.com/Why%20K%C3%A4hrs)

SENSE AND SENSIBILITY

Brushed, hand-scraped, bevelled, silky smooth or matt. Each Kährs plank is unique and individually treated, according to its own unique composition of knots and graining. The result is a dynamic surface that transforms in different lights and depending on which angle it's viewed from. A Kährs floor never fails to amaze and feed the senses!

kahrs.com/Products

A DIFFERENT SHADE OF NATURE

From pure white to inky black. From warm russet to soft grey. Kährs offers the widest range of colours and shades. To obtain the right nuance, we use staining techniques and different surface treatments in our design processes. These enhance the natural tone and texture of the wood, without disguising the fabulous natural feel.

[kahrs.com/Why Kährs](https://kahrs.com/Why%20K%C3%A4hrs)

ENDLESS VARIATIONS

Whatever the size of room or interior style, there's a Kährs floor that will enhance the space. Our wood floors come in many wood species, sizes, patterns and finishes.

kahrs.com/Products

THE FINISHING TOUCH

It's in the detail that you'll see the level of skill and craftsmanship that goes into every product made by Kährs. Choose from a wide range of mouldings and accessories, that are designed to add the perfect finishing touch.

BEAUTY WITH A CONSCIENCE

Choosing a wood floor is a great way of being environmentally responsible. Choosing one from Kährs means making an even smarter, greener choice. Kährs is one of the oldest producers of wood flooring in the world – and the most innovative. During the last century, our many inventions have transformed the production of wood floors globally. Throughout this time, we've continued to capture the beauty and expression of wood. We combine its natural character with cutting edge innovation, to produce the highest quality wood flooring.

GREEN PRODUCT

The multi-layer wood floor, that we invented in 1941, proved not only to be the best and most stable flooring on the market; it was also the most environmentally friendly construction. It optimizes the use of the raw material, it is made from renewable resources and it is recyclable.

kahrs.com/green Kährs

LESS RAW MATERIAL

Our multi-layered construction allows us to use the raw material more effectively, utilizing the whole log.

kahrs.com/green Kährs

SOLVENT FREE

We constantly strive to find the most environmentally friendly, solvent-free stains and lacquers. And, our surfaces are really easy to keep spotlessly clean, without the need to use harsh chemicals.

kahrs.com/green Kährs

GREEN PRODUCTION

Our production process is designed to have minimal impact on the environment. Over the years, Kährs has introduced a number of manufacturing and flooring innovations that have enabled a more responsible, green production. We work hard to reduce our impact to nature, in terms of air quality, water discharge and noise control, to the benefit of our employees and neighbours.

HEALTHY PRODUCTION HEALTHY FLOOR

Back in 1984, Kährs was the first wood flooring manufacturer to utilize a water-based lacquer system to reduce emissions. Kährs meets European E1, Eo and California Air Resources Board – Airborne Toxic Control Measure (CARB-ATCM) Phase 1 and 2 standards.

kahrs.com/green Kährs

NOTHING IS WASTED

At our production plant in Nybro, nothing goes to waste. The portion of the logs that we're not able to use for floor production are turned into biofuel. Some of this fuel is used to heat our own facilities. The rest goes to a local energy company. About 45,000 people in our neighbourhood enjoy the warmth of our recycled wood.

kahrs.com/green Kährs

A GREEN MINDSET

Environmental, social, governance (ESG) and corporate social responsibility (CSR) matters impact the communities where Kährs operates. We have made a public commitment to incorporate these ethical principles into the way we behave locally and globally.

Our commitment to the environment starts with the selection of the best raw material. This is achieved with the support of our 3000+ timber suppliers who share in our commitments.

kahrs.com/green Kährs

PLANTING AHEAD

Kährs is working with local, national and global organizations to ensure the forest stock is sustainable for generations to come. In Sweden, the total forest volume is 60% larger today than it was in the 1920's. Kährs is working with leading global programs, reforestation programs and leading environmental groups to support globally responsible forestry.

kahrs.com/green Kährs

ENVIRONMENTAL STANDARDS

We have environmentally and quality certified our operations since the 1990's. And, we have been publishing a transparent, audited EMAS Environmental report since 1997.

Many of Kährs' products contribute to LEED (Leadership in Energy and Environmental Design) points on construction projects.
